## Required Materials

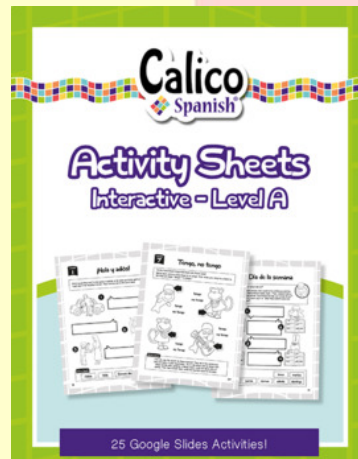

## Course Curriculum

Beginner Spanish 101 introduces basic written and spoken Spanish to students who have little or no previous knowledge of the language. Communication skills and vocabulary are emphasized. Some aspects of Hispanic culture and traditions are introduced. Classes include watching videos and engaging in fun and interactive games. (Kahoot!)

## Parent Involvement

Students are strongly encouraged to practice their speaking skills at home with friends and family. Help your child organize and store their Spanish worksheets with a designated binder and/or folder. Students are expected to complete homework assignments and have them submitted/ready for class.
