

Biology 102

2022 • 2023 SCHOOL YEAR

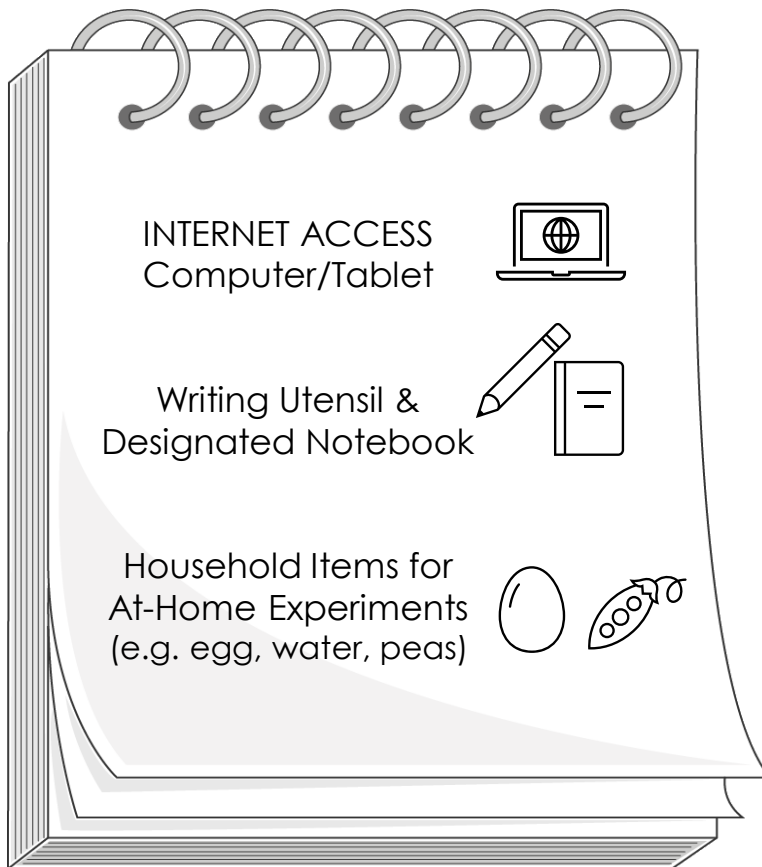

Mrs. Rojas

Online w/ LIVE Instructor

rojas@hchomeschooling.org

MATERIALS

DO

- Be Respectful
- Be On-Time
- Participate

DO NOT

- Turn-Off Camera
- Sleep in Class
- Be Disruptive

APPROACH

Teaching hands-on science lessons with fun activities makes learning more interactive and engaging for students. It's also a sure-fire way for the science teacher to get children to retain the information.

GOALS

The main goal of the course is to relate science to the everyday lives of students and to guide them to discover Biology as a powerful tool to understand their bodies and the living world around them.

GRADES
