

Game Design

Have you ever dreamed of creating a video game? In this course, we'll dive into game development. Students will learn the fundamentals of game design, starting with HTML programming. During the course, we will use AI technology for storytelling and image creation, infusing unlimited options into game creation. We'll also work on enhancing writing skills by coding trivia challenges and immersive choose-your-own-adventure games. Learners will have the opportunity to collaborate on a group game. Together, you'll practice the techniques learned throughout the course to craft a game that can be shared with friends and family. You don't need any previous experience or special software; you'll only need your creativity and a laptop!

Tuesdays

10:00 A.M. to 11:00 A.M.

Grades 3-7

01/27/2026-03/17/2026

Computers or Chromebooks Required

K-1st grade students use a simplified coding platform with easy-to-use buttons to introduce game design and build custom games based on their interests.
